| Russell 1000 Index | 12.05% | 0.92% | 13.24% | 33.11% | 16.42% |

### Performance Disclosure:

**Past performance is no guarantee of future results.** Fund performance shown is net of investment management fees. Performance is provided for reference only and is not indicative of future results. The Large Cap Equity Fund is made up of the following funds: 50% T. Rowe Large Cap Growth Equity Fund and 50% AJO Large Cap Absolute Value Fund. Returns were computed by asset-weighting each of the managers' net of fee composite performance on a monthly basis. Because the Large Cap Fund is a newly created fund, there is no actual past performance history for the fund. Performance shown is intended for informational purposes as a sample of composite returns for the underlying strategies. Estimated fees were based on fees for each of the managers assumed at their target weights as of June 30, 2017; additional administrative and operating fees may be incurred. Returns 1 year and greater are annualized. The Russell 1000 Index measures performance of the US large cap segment of the US equity universe. Please note one cannot directly invest in an index, as index performance is provided solely as a benchmark.
